

## TIME

TRUE REALITY OF TIME

Time, when viewed from the point of True Reality, is quite different than it seems to be when seen from the earth plane.

TIME CONCEPT

The concept of time is just a concept. The True Reality of Being is HERE AND NOW. The present moment is the only time there is. From the lower levels, time seems to go very slowly. The higher you move in consciousness, the faster time seems to move, until the past, present, and the future all become one, and melt into the ever-present NOW.

PAST AND FUTURE

The part of time that we call the past and the future is present here and now. By accepting this statement and raising your consciousness, you can mold time to suit your needs or design.

IMPROVE PAST

By remembering your past, you can improve it by changing it, reshaping it to fit a better mold and thus change your future. It is true that the unenlightened are controlled by the patterns they have created from the past.

CORRECT MISTAKES

By reviewing the past in your mind, you can pick out the mistakes and re-write the script, then in your mind, relive the past a few times as corrected in the new "script." This is denying the negative patterns to continue their influence into the present, thus cutting their connection to the future.

LIVE IN THE PRESENT

The point of time you find yourself in is called the PRESENT. You will always be in this same point of time, the present. You can use this point of time---the present---to recall the past, because every experience, every impression that you have ever had, is WITHIN you, in the Memory Banks of your subconscious.

YOU ARE THE MASTER

When you learn to understand that you are the MASTER of yourself, you can review that which has gone before and with the greater understanding that you now have, make the changes in the patterns from the past, thus bringing yourself up-to-date.

TIMELESSNESS

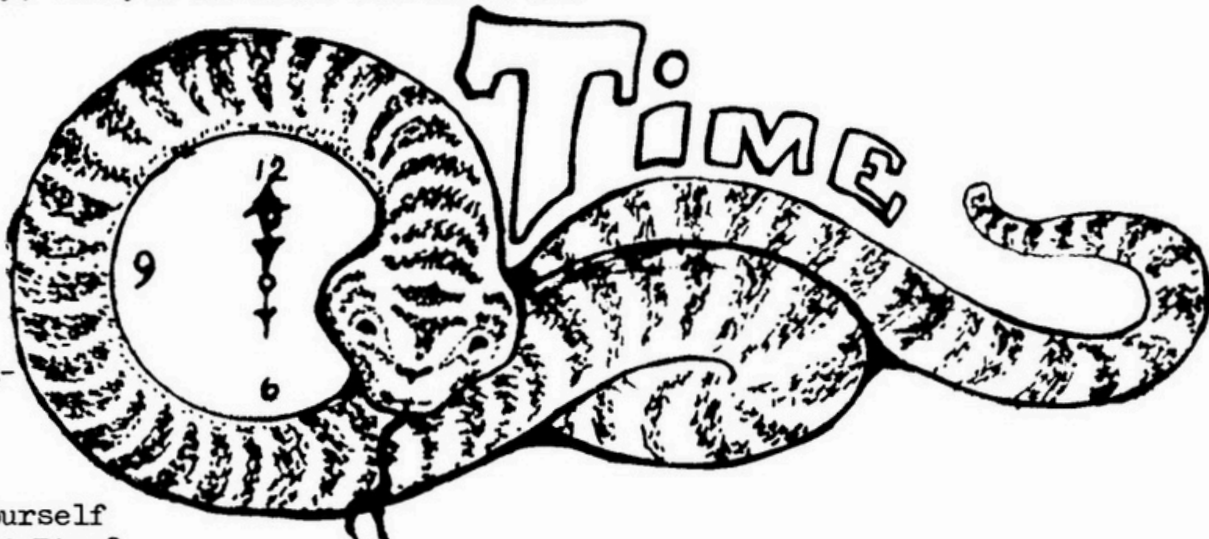

Can you think of a time when there was no TIME? By going back far enough into the past, you will come to a place in "time", or a place in consciousness when there was no time. You will become aware of the "time" when you were in the Godhead and One with ALL creation; a "time" when all is ONE, including the past, present and Future.

GARDEN OF EDEN

Once upon a "time" there were two people, one man, one woman. They were very happy and very much in love. They lived in a beautiful garden. There was no conflict, just Light, Love, Peace and Joy. Everything was in a PERFECT STATE of Being. This couple had known nothing else because they had never been outside of the garden.

Then, one day, some "dude" came along, dressed in clothes that resembled a snake. He saw Eve and said, "Hello, doll, what's happening?" Eve said, "Oh, nothing." This dude said, "Well, let's get something going. Have you ever heard of "EXPERIENCE?" Eve said, "No. What is it?" The snake said, "Well, it goes something like this. You see, you have to play this GAME of Good and Evil called DUALITY. Eve said, "I never heard of it. How does it go?" The snake said, "Stick with me, baby, and you'll learn all about it."

You see, the dude dressed as a "snake" was really called Wisdom, and his "game" is still being played on this earth plane. You will find it playing on the well-known stage called TIME.

Can you think of yourself as living OUTSIDE of Time?

STOP TIME

You can stop time by going within and taking a look from the Higher view called True Reality. From this point, you can see the Past, Present, and the Future. From this High Level, you can come to the realization that you are the master of time. You can bend it and even turn it back on itself.

ACCELERATE YOUR LIFE

If you will, you can take control and speed up time to accomplish 20 lifetimes or more in the rest of this life.

Time spent without Soul's Growth, has no Spiritual meaning.
