

THE FREEDOM OF TIMELESSNESS

ACCEPT YOUR FREEDOM

Let us begin to accept our freedom from time and space by getting used to the idea of travel outside, or beyond, time. To travel outside of time is not to travel at all, because the word travel suggests a certain length of time to get to some place, or space. Let us use the word experience instead of travel.

NO BEGINNING - NO END

We experience the timelessness of Eternity by giving up the idea of time and space, and with the inner image, take hold of the experience of life in the sense of Eternity. The word Eternity means no beginning and no ending, or in other words, no time or space.

LIFE IS ETERNAL

The True Reality of life is that life is Eternal, and to be caught up with the idea of time and space is to be imprisoned and shut away from the Reality of life.

ONLY REFLECTION OF LIFE

The physical plane is much more than a prison. Those in prison know that there is more to life than their prison cells, but most on the physical plane believe that the physical is all of life, when in True Reality it is not life at all, but just a reflection of life. If, on the physical plane, we have just been experiencing the reflection of life, what is it like to experience the True Reality of Life?

LIVE IN LIGHT!

Again, remember, to have Light you must give up the concept of darkness.

And to experience the Reality of Life, you must give up the concept of time and space, and bring your full consciousness to the here and now, the present moment, and keep it there.

ETERNAL NOW

To live life to the fullest, you must continually live one moment at a time, continually live in the Eternal Now.

SUGGESTION

I AM. RIGHT NOW IS THE EXPLANATION OF LIFE. THIS LIFE THAT I AM RIGHT NOW, WHEN GIVEN FREEDOM FROM THE CONCEPT OF TIME AND SPACE OF LIMITATION, IS CONTINUALLY BURSTING INTO MORE LIFE, MORE CONSCIOUSNESS.

I AM CONTINUALLY AWAKENING TO MORE OF THE LIFE THAT I AM WHEN I KEEP MY FOCUS ON THE NOW.
