REMEMBER TO REMEMBER

REMEMBER THE COMMUNICATION

As you learn to bring back the thread of memory from the other dimensions of life, and remember the experiences beyond the illusionary concept of time and space, remember to remember the communication and guidance of your Teachers and Guides.

YOU HAVE HELP

Everyone has a guardian angel. Those who are striving to grow and expand their consciousness, as you are, have as many as ten or twenty, according to the need.

BE UNIQUE

There are so few who are open to this way of thinking, and even fewer who are dedicated to helping others and the planet to move into a higher vibratory rate, a Higher Consciousness. But, there are many Beings of Light, from all levels, eagerly waiting to help those who are open.

FREE WILL IS A GIFT

Because of free will, they cannot openly offer their unlimited guidance. Your free will is the most valuable thing in life, except God's Love for you. The free will, a Gift to all mankind, is a part

of His Love for you.

ETERNAL GROWTH

If you desire to grow beyond this physical plane of illusion, then use your Gift of free will to be open and ask for Divine Guidance, not every once in awhile when you happen to think of it, but every mement of the nowness of Eternity.

STAY ABOVE THE "GAME"

When you slip back into the "game" of time and space on the stage of duality, you have taken back the reins of running your life, given your free will back to the little self, the personality, that mask that is just the reflection of the Reality of the Divinity that you are.

USE YOUR HIGHEST POWER

This reflection, that makes up the dual personality that seems to be you, has no power of its own and has to trick you, the Divine Image of the Father of all life, into playing its game.

STOP NEEDLESS REPETITION

This game played out on the stage of duality, using the illusion of time and space, will lead you down the garden path to repeat the pain and pleasure cycle on the merry-go-round of the re-incarnational birth and death again and again as long as you, with your free will, ALLOW it to continue.

IT'S YOUR CHOICE!

Yours is the choice to stop the world and get off the merry-go-round, and claim your Divine Inheritance, and live to the fullest right now in the timelessness of Eternity.

TAKE HOLD-AND HOLD ON!!

It is here and now. Reach out and take hold of the Reality of your Eternal Being and never let go!
